GOT ENERGY TALENT
COFUND FELLOWSHIP PROGRAMME

**Program of support for excellent
researchers in Madrid**

WHAT

GOT ENERGY TALENT is a highly competitive, merit-based fellowship programme aimed to attract **postdoctoral talent in the field of smart energy**.

GOT ENERGY TALENT will offer **34 fellowships** over two calls for proposals, planned for summer 2018 and spring 2019 in order to develop independent research ideas in the field of smart energy and related areas.

WHO

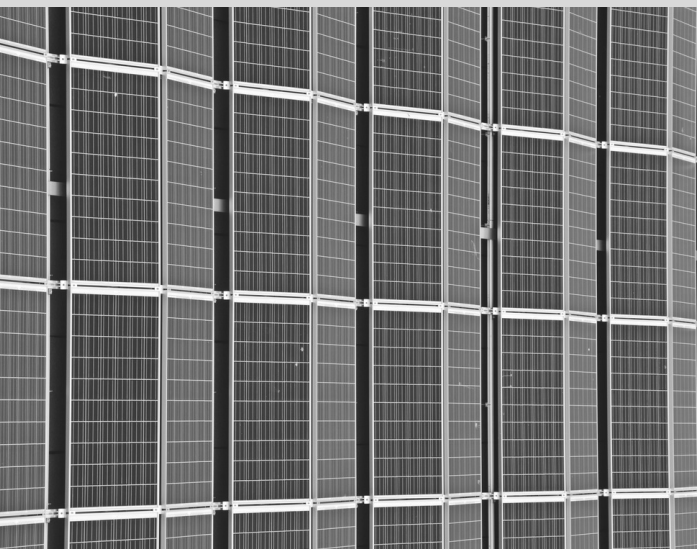

GOT ENERGY TALENT is a Marie Skłodowska-Curie COFUND Action, led by the **University of Alcalá (UAH)** with the support of the **University Rey Juan Carlos of Madrid (URJC)**, who co-leads and co-funds the Programme. **GOT TALENT ENERGY** falls within the existing close collaboration between UAH and URJC in the framework of **International Campus of Excellence (ICE) - Smart Energy**.

GOT ENERGY TALENT

THE ENERGY OF TOMORROW

WITH WHOM

GOT ENERGY TALENT is supported by a comprehensive network of partners. Our partners include **academic, institutional and industrial organisations** that work in smart energy and related fields, as well as in innovation and entrepreneurship.

HOW

GOT ENERGY TALENT will offer **attractive working conditions**: a competitive salary as well as a budget line for research costs; training in aspects of relevance including transferable skills training; and a broad visibility for researchers through dissemination events.
